

THE OPPORTUNITY

Your customers are already telling you what they want.
Loominate acts on it.

Every customer is already expressing intent. **But it's scattered across systems that each hold only a fragment, with no one keeping the whole relationship.**

Loominate is a bet on human nature: that we will return, as we always do, to communicating with words and sentences. It captures what customers express, combines it with what they do, and turns that complete picture into insights and action for every team in your organization so you can finally deliver on the brand promise you've been making.

Captures

Everything customers express, and how they engage. In their words, not an inferred click.

Understands

It interprets each signal, decides what it means, and files it where it belongs, sharpening the picture every time.

Acts

The right next move, delivered in the tools every team already uses.

WHAT IT ISN'T

You've tried this before. **This isn't that.**

× **Not a chatbot**

Instead of answering questions, it takes action.

× **Not a CDP**

Instead of storing the data, it understands what it means.

× **Not a personalization layer**

Instead of guessing from a click, it works from what they said.

× **Not a dashboard**

Instead of just telling you, it surfaces the actions to take and lets you take them.

THE SYSTEM

Every signal woven into **intelligence**.

Thread

A SINGLE RELATIONSHIP

One customer, held in one place that gets stronger with every interaction.

Fabric

ACROSS YOUR TEAMS

Threads woven together, getting richer as more accumulate.

Pattern

ACROSS YOUR ORGANIZATION

The shape of your market, emerging from the whole.

Intelligence Layer

Through all of it: it interprets signal, asks the right next question, surfaces guidance, and takes action, shaped by the brand voice and guardrails you configure.

WHAT EVERY TEAM GETS

SALES

Ranked accounts and next actions, right in the CRM.

Better-qualified pipeline. Shorter cycles.

SERVICE

Churn caught in the signal before it becomes a ticket.

Lower cost to serve. Retention, not loss.

MARKETING

Spend and messaging driven by what customers actually said.

Higher-converting campaigns.

LEADERSHIP

Initiatives ranked live against goals and real customer intent.

Higher lifetime value.

WHERE TO BEGIN

1

Start with one Thread

Stand it up with the one team feeling the most pain. No rip-and-replace, no overhaul to get going.

2

Operated by WOW

Hybrid SaaS, outcome-led: onboarding plus a monthly tier per Thread.

3

Built to pay back

Designed to recover within six months, against the numbers you set.

We'll show you **what your customers have been trying to tell you.**
